PROFILE

Experienced Frontend Developer with a strong focus on performance, scalability, and user experience. Skilled in React.js, Next.js, TypeScript, and modern UI libraries like TailwindCSS. Led a full-scale admin dashboard rebuild that boosted performance, grew the customer base by 50%, and contributed to a mobile app reaching #1 in the App Store's finance category for the region. Proficient in real-time data streaming using WebSockets and optimizing applications with Redux, Zustand, React Query, and API integrations. Passionate about building seamless, high-performing web applications.

CORE COMPETENCIES

- **React.js & Next.js Development** – Building scalable, high-performance web applications with TypeScript for type safety and maintainability.
- **State Management** – Proficient in Redux, Zustand, React Query, and context-based state management for optimised data handling.
- **Real-Time Data Streaming** – Implementing WebSockets for live data updates in complex UI components like tables and dashboards.
- **Performance Optimisation** – Improving app speed and scalability through lazy loading, virtualisation, code-splitting, and API optimisation.
- **UI/UX & Component Libraries** – Crafting pixel-perfect, responsive, and accessible interfaces using Tailwind CSS, SCSS, and other UI frameworks.
- **Testing & Quality Assurance** – Writing end-to-end and integration tests using Playwright to ensure application reliability and regression coverage.
- **Security Best Practices** – Implementing authentication, authorisation, and 2FA for enhanced data protection.
- **Collaboration & Problem-Solving** – Working cross-functionally with backend developers, designers, and stakeholders to deliver seamless digital experiences.

EXPERIENCE

Wicrypt · Nigeria (Remote) Nov 2023 – Present

React Frontend Developer

- Managed the existing admin dashboard, fixing critical bugs and implementing new features to improve functionality.
- Led the complete rebuild of the admin dashboard in sync with a new backend and mobile app, ensuring scalability and performance.
- Integrated WebSockets for real-time data streaming, allowing instant updates for fast-changing financial metrics.
- Contributed to a 50% increase in user base within two months post-launch, as the mobile app reached #1 on the App Store's finance chart in the region.

Ayika · Nigeria (Remote) Mar 2024 – Dec 2024

React Native Mobile Developer

- Developed mobile applications for connecting service providers to clients using React Native and TypeScript.
- Enhanced efficiency and responsiveness using Nativewind for styling, ensuring a consistent user experience and reducing styling issues by 40%.
- Seamlessly integrated backend services with mobile apps through REST and GraphQL APIs, providing real-time data updates.
- Implemented strong security protocols to safeguard user data, resulting in a 50% reduction in security incidents.

PROJECTS

MTN YelloFi Dashboard *React · TailwindCSS · Playwright*
https://mtn.yelloyfi.com/

- Contributed as part of the frontend team to build MTN's YelloFi dashboard, a live platform for managing and monitoring MTN's fibre and broadband services.
- Built responsive, accessible UI components using React and TailwindCSS, ensuring a polished experience across devices.
- Implemented end-to-end tests with Playwright to maintain reliability and catch regressions ahead of the production launch.

Wicrypt Landing Page *Next.js · TypeScript · TailwindCSS · REST API*
https://wicrypt.com

- Solely designed and developed the full Wicrypt landing page using Next.js and TypeScript.
- Built and integrated a RESTful API layer to dynamically serve content such as network stats, device listings, and platform data to the frontend.
- Consumed REST API endpoints to display real-time Wicrypt network data, ensuring content stays current without manual updates.
- Implemented responsive layouts with TailwindCSS, ensuring a consistent and polished experience across all screen sizes and devices.

EDUCATION

University of Nigeria, Nsukka
Bachelor's Degree in Microbiology
